[EMRAustralia.com.au Knowledgebase Inconvenient truth – the John Patterson story.](#) What inconvenient truth led a highly-regarded radiation expert to take the law into his own hands and demolish six mobile phone stations? As he faces sentencing this month, John Patterson talks to EMR and Health about the story behind the news.

John Patterson is a pleasant, considerate and well-mannered man with an easy smile and a wicked sense of humour. He is also one of Australia's leading radiation experts—a man who has been at the cutting edge of communications technology for the past 33 years. Pub 2 March 2010 Added 27 Sept 2018

Video. SUCCESS! [Meeting 20 September 2018 Willows Creek NSW We had a remarkable win](#) this week against the Big Boys – giant Telstar. The community of Wilsons Creek where I live in northern NSW actually stopped them in their tracks from foisting on us a 30m wifi tower which pumps out and receives 24/7 deadly Electro Magnetic radiation – a giant microwave oven that fries our brains and organs, our kids...and the unique creatures we have living with us here in the Bush. Go Wilsons Creek! 2:35 Pub 21 Sept 2018 Added 22 Sept 2018

[Channel 9 news \(via msn.com\) Sydney: Cancers, tumours': Fears surround phone towers](#) near homes. There are concerns over health risks posed by new mobile phone towers being rolled out in residential areas in preparation for the launch of 5G. With the new technology on its way, the federal government introduced legislation which allowed telecommunication companies the power to erect towers onto power poles without needing permission from local councils. [smh.com.au](#) Sydney Morning Herald [Top 5G suppliers linked to China's communist party](#). Three potential suppliers of equipment to Australia's next generation 5G network have connections to China's Communist Party. While the Turnbull Government has been strongly lobbied by federal MPs and security officials to ban Chinese-owned Huawei from involvement in the 5G network, there has been little focus on the Chinese-connections of two other likely 5G participants, Nokia and Ericsson.
