

# SM Trade Journals, worldwide.

I have decided not to list most of the forecasts, projections, and talk of competition between service providers.

I will only mention technical /strategic content re reach and development. Ed.

**NB there are many articles on Huawei questioning whether they can be trusted not to spy on people. This is not the point of this website. You can do a search easily enough to see the current state of play. I feel this is a political subject . It is a deep rabbit hole.**
