Russians used “our” cell phone frequencies as weapons in mid-1950s

The U.K. Defence Intelligence Agency research dates from 1976 and shows the dangers were known about over twenty years ago. The Soviets used the frequencies and intensities used by mobile phones, 1800 MHz and 900 MHz, as weapons!

Project Pandora

Eldon Byrd, a scientist for the Naval Surface Weapon Centre, USN, said about M/W radiation in 1986: **'We can alter the behaviour of tissues, cells, organs and whole organisms.... you can cause up to six times higher foetus mortality and birth defects in laboratory animals, and these fields are so weak you can hardly detect them...It is known how to induce malignant diseases in human cells ... and how to cure them...'**

Car-collision avoidance, **Smart Meters**, **Meshed-grid networks**, etc.

Man-Made EMR

Scientists estimate that Earth's level of EMR is now *100-200 million times greater* than it was 100 years ago, and that it *has increased 1,000,000 times in just the last decade!* All wireless transmitting devices emit EMR, but none moreso than *wireless smart meters in meshed-grid networks.*

Non-industry Scientists Say

Prof. Yurij Grigoriev, Chairman of RNCNIRP said: “Man conquered the Black Plague, but now he’s created EMF pollution”

The International Doctors’ Appeal (more than 1,000 doctors) states: “This is the greatest biomedical experiment in human history ever.”

Dr. Robert O. Becker, Two-time Nobel Nominee said: “The greatest polluting element in Earth’s environment is the proliferation of EMF.”

Non-industry Scientists (Cont'd)

“We may be facing a looming epidemic of morbidity and mortality.” Dr. Sam Milham, first scientist to connect electricity to health problems.

“Never before has humankind been exposed to such high amounts of this very disruptive energy, and effects are cumulative.” Dr. Andrew Weill, leading health expert.

“There is no safe threshold level. The only safe exposure level is zero.” Dr. Neil Cherry.

Non-industry Scientists (Cont'd)

The [2011 Seletun Scientific Panel](#) says: “Global population is at risk. Reduce Exposure Limits 1,000 to 10,000 times.

“...exposure to microwave and EMF is significantly harmful to all health and life itself.”

[Dr. Dietrich Klinghardt.](#)

“There’s a major health crisis coming, probably already underway ... cancers, learning disabilities, ADD, Autism, Alzheimer’s, Parkinson’s, psychological & behavioral problems. [Dr. George Carlo](#)

Electro Hypersensitivity:

“EHS” Symptoms

“Microwave Sickness,” first reported in 1932,

Includes **headaches**, dizziness, **disrupted sleep**, insomnia, **fatigue**, nausea, **heart palpitations**, memory loss, **tinnitus**, skin rashes, **muscle and joint pain**, leg and foot pain, **tingling**, irritability, **numbness**, nosebleeds, **depression**, anxiety, etc.

Ten per cent of European’s now EHS; experts fear will grow to **50% by 2017!** *(in Canada too!)*

Illnesses Linked to EMR

Many cancers, neurological conditions, ADD, sleep disorders, depression, Autism, Alzheimer's, Parkinson's, cognitive problems, cardiovascular irregularities, hormone disruption, immune system disorders, metabolism changes, stress, fertility impairment, increased blood brain barrier permeability, mineral disruption, DNA damage, etc.

1971 - U.S. Naval Medical Research Institute

1973 – M/W Radiation Study NRC and University of Ottawa

In view of the expected proliferation of M/W devices, *a substantial increase in ambient levels of M/W is feared that may endanger human health.* On this basis *strict control of the use of these devices must be introduced while present safety standards are revised and extensive research is conducted into long term effects of exposure to low intensity M/W radiation. In particular, a study of possible accumulative effects of M/W radiation be conducted.*

1974 - Most Lethal M/W

Frequencies: 0.95 and 2.45 GHz

“Research conducted at **Stanford Research Institute**, Menlo Park, California, showed that experimental exposure to high levels of microwave radiation well above U.S. and Canadian guidelines killed rats within a matter of seconds to a few minutes. Of the 4 frequencies tested, the two **most lethal frequencies were 0.95 and 2.45 GHz**920 to 960 MHz, which is exactly the most deadly frequency specified by this research.” MagdaHavas.com

Cited a 1950s report stating: *“If this paper becomes known around the world, it will threaten military and commercial interests.”* He especially condemned Health Canada’s Code 6

prd34.blogspot.com/2012_03_04_archive.html

He also said: “A 1976 Document summarizing U.S. Defense Intelligence research is the **saddest and most despicable document ever published in history.**” The document lists all of the health hazards caused by wireless devices and concludes: *“This should be kept secret to preserve industrial profit.”*

2012 - EMF & Female Breast Cancer

Female breast cancer has reached epidemic proportions, with 1 in 10 American women developing it and 1 in 4 dying.

Alarming, of women who develop the disease, **55% have no known risk factors. Breast cancer mortality rates are five times lower in Asia and Africa than in industrialized North America and northern Europe regions where EMFs are omnipresent.**

EMR Suppresses Melatonin

Produced by the Pineal gland, **Melatonin** is a powerful cancer-fighting hormone produced in the body at night. Sleeping in a room surrounded by our favourite devices – **cordless phone, cell phone, digital clock, CD/radio player, computer and TV** – can seriously suppress melatonin production.

\$Billions in Profit for the Government

The Cellular Communication industry generates billions in profit and in revenue for the government.

It is linked to retirement funds, media, banking giants, entertainment industries, the educational market, the music industry and medicine.

If enough news stories broke, and significant doubt in citizens replaced their complacent routine use of cell phones, the Industry would be forced to redesign wireless technology for safety and not just with more bells and whistles.

Smart Meter Radiation Kills Plants

Smart Meters vs Cell Phones

Fortis Says: On average, a meter transmits customer data 4 to 6 times a day, for a total average of one minute per day.

Pacific Gas & Electric in a California Court of Law admitted that on average a meter pulses 14,000 times per day to a maximum of 190,000 and a peak power level 2-1/2 times higher than the stated safety signal, which is 10X more powerful than a cell phone! Even this does not include the ZigBee-related EMR from the 15-or-so “smart” appliances, nor the Collector EMR, nor the incalculable “relays” that would occur.

Utility Executives Tell the Truth at CA. Public Utilities Commission

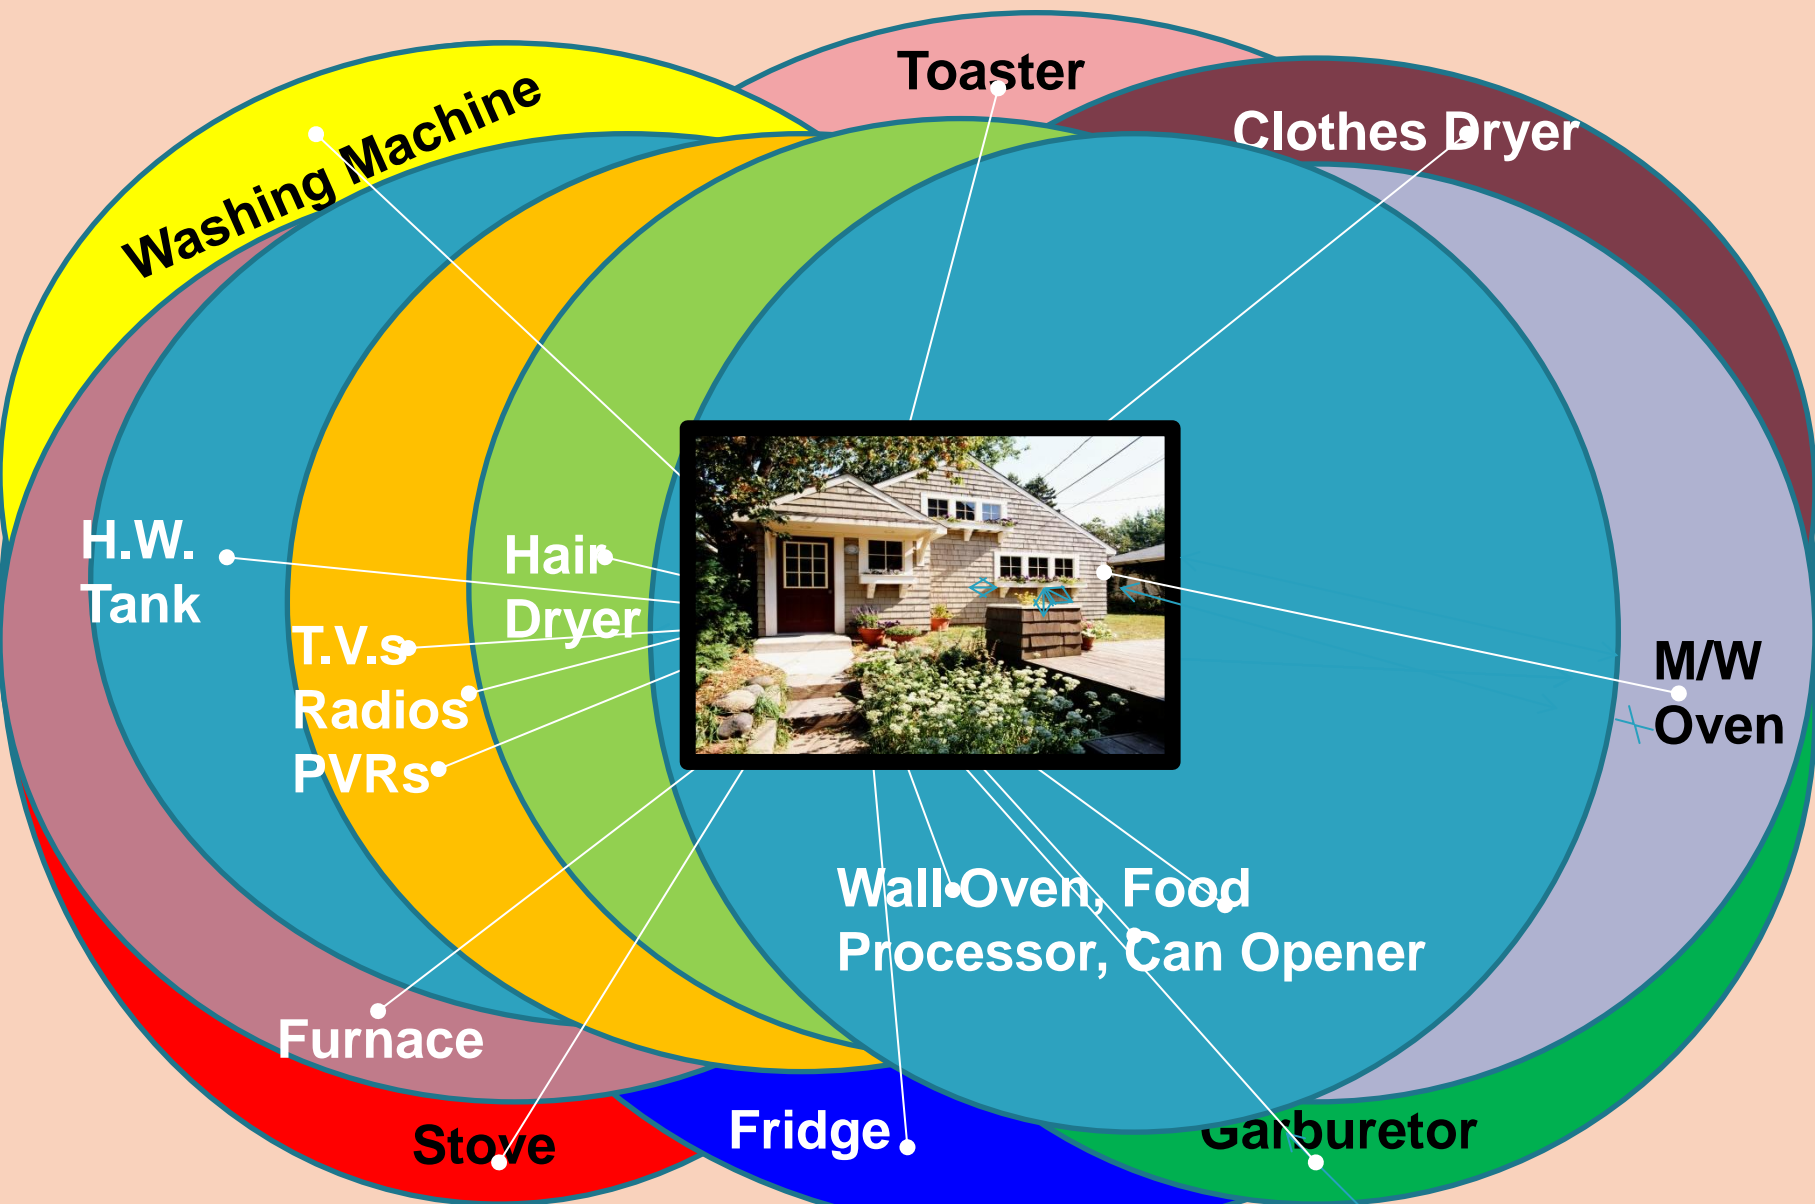

Silver Spring Networks executives admitted SmartMeters are transmitting continuously 24/7. Even though they only upload usage information 6 times per day to PG&E, they are continuously 'chatting' with each other 24/7 every few seconds in order to authenticate and keep the network synchronized. 90% of the meter chatter is to keep the network synched up – radiation that has nothing to do with customer energy usage

The Smart Meter Lie:

What Utilities Don't & Won't Tell You

Every home will have 15-or-more 'smart' appliances, i.e., 17+ pulsing M/W transmitters - *16 operating on same frequency as your M/W oven: 2.4 GHz!*

The 17th transmitter, the LAN, radiates for up to 3 Km, i.e., *every home will radiate – and be radiated by – every other home in the entire community!*

Smart Meters have a *Kill-Switch!*

How a “Meshed-grid” Works

500 homes = 500 Smart Meters = 1,000 Tx/Rx circuits:

a) 500 LAN Tx/Rx (910 MHz, .5 Watts ERP) +

b) 500 “ZigBee” Tx/Rx (2.4 GHz, 186 mW ERP)

Homes are expected to have 15-or-so “Smart” appliances,” each with its own 2.4 GHz Tx/Rx for a total of **7,500** “smart” appliances.

Plus “**Collector**” meter, with **3** Tx/Rx, 3rd being WWAN (850 MHz). Homes will endure **<500 relays on every transmission - in BOTH directions!**

All 8,503 Tx/Rx in community emit pulsed M/W radiation – **8,001 on same M/W oven frequency – but all of these are PULSED!**

FORTIS BC Says:

Smart Meters will help keep rates lower ... **save customers >\$19 million (less electricity theft) and lower meter reading costs.**

FACTS

CBC Survey of Toronto – >80% higher bills!

- **Many report monthly bills doubling, tripling & even quadrupling!**
- **Analogue meters cost \$50 & last 30-50 yrs**
- **Smart Meters cost <\$500 & last <8 to 12 yrs**
- **Smart Meters have caused countless fires**

The Canadian Smart Grid Standards: Privacy of Customer Data

Third-Party Access to Customer and Utility Data: Beyond the *Smart Grid Privacy Principles* are the detailed protocols and ground rules by which third-party service providers may access customer data and receive data on the customer's behalf from their local utility. In Ontario, this issue has risen to prominence; an emerging class of private-sector players has expressed interest in accessing real-time smart metering data to provide a burgeoning array of Smart Home products and services. Section 5 of this report also includes a technical approach to resolve this access issue in a safe and secure manner. The Task Force notes that the North American Energy Standards Board (NAESB)¹⁷ has just concluded the development of a comprehensive set of detailed recommendations regarding the division of responsibility between third parties and utility companies that warrant a close examination by regulators and the Canadian electricity industry.

Plummeting House Prices

Due to high ELF and EMF

In addition to long-term health concerns, buying a house or living in a house with high fields will be an economic disaster. In a few years, when power line radiation is as well known as asbestos and radon, a house near power lines or with high fields will be practically impossible to sell.

Business Week writes that there are over 100 lawsuits regarding power lines and property devaluation.

2012 - Smart Meters Unethical Experiment

Dr. Eilhu Richter, M.D., an associate professor at Hebrew University-Hadassah, has said,
“Were these population-wide exposures to smart meters to be a part of a project carried out in a medical setting, to test the risks and benefits of a new technology on human health and well-being, it would be rejected... as an unethical exercise in human experimentation.”

EMR - The Nuremberg Code

In essence, it says: a person being experimented upon must first:

- give their consent - free from *force, fraud, deceit, duress or coercion*;
- have sufficient knowledge of *what is happening*; and
- know the possible effects upon one's health.

It is the responsibility of BC Hydro and Fortis BC to ensure that the public are aware of and fully understand what is happening to them and what, if any, possible risks to them might be involved.

EMR is GENOCIDE

2012 “This industry and those parts of governments which are encouraging them will be responsible for **killing more people than all those killed in the entire 2nd World War! This will be the worst genocide this planet has ever known – not just people, but plants and animals.**

2013 The U.K., U.S., Canadian and Australian governments are lying to the public to protect themselves against lawsuits and to make money for industry!”

Conclusion

Scientific evidence leaves no doubt that EMR poses the biggest single threat to humans and all other life forms in Canada's entire history and, in the case of Smart Meters, to our personal privacy and safety, and to our country's national security! Governments must be made to divorce themselves from industry and instead protect the public. But this will not happen unless **YOU** STAND UP and **YOU** SPEAK OUT!
